

What's Developing

Several years ago crafters from the Eureka area were invited to a meeting to develop ways to let others know about their talents and the items that they made and were willing to sell. Following that meeting a brochure was designed and a page was put on the www.eurekasd.com website. It went by the title "Eureka's Hidden Treasures". This project was done in conjunction with the Eureka School business class.

As the years have passed, some of that information has become outdated. Work is being done now to make it current.

One of the original developers of the project, Mary Gab, is contacting those who are featured in the brochure and website to see if they still want to be listed.

Plans are to discontinue the brochure and to place all information on the website where it can be updated and be kept current.

People new to the area and those who have since begun making crafts for sale are invited to have information listed. Those who would like to be included or wish further information can call Mary Gab or contact the Eureka Community Development Company office. This is done free of charge for all who are listed. Crafts must be made by the person who is listed and cannot be made from molds or kits.
