

What's Developing

Eureka businesses can list job openings on the Eureka website. Websites reach out worldwide, so advertising for employees through this avenue has the potential of reaching vast numbers of people. Plus, it is free.

Webster, SD added a page to their website for employee recruitment and they have nearly 2000 visits to that area each month. They also place their job openings on Facebook and have seen increased traffic in that area of social media.

Likewise, the job openings that are placed on the Eureka website will also be featured on the Eureka Facebook page.

If you have a job opening now or at any time in the future, email the information you would like published to ecdc@valleytel.net, send it to ECDC, PO Box 134, Eureka, SD 57437, or drop it off at the Eureka Development office in the Information Center. It will remain as a posting until you ask that it be removed.

It's up to each business owner or manager as to the content of the message to be included. There is no minimum or maximum for any listing.
