

What's Developing

Have you ever heard someone mention the word “community” and wondered what it meant? I’m guessing you knew exactly what it meant. Probably you would say it is our town and the area that surrounds it. It would also be safe to say that the people who call Eureka their local shopping area would be in the Eureka community.

It is people in this community that not only shop in Eureka; they also serve here in many capacities. Boards and committees are comprised of both town and country residents. The Eureka Fire Department, West McPherson EMS (ambulance), Eureka Community Health Services Board, Eureka Community Development Company Board, Eureka Chamber of Commerce Board, Eureka Area Community Foundation Board, Eureka Pioneer Museum Board – the members in all of these plus many more boards and organizations – are comprised of both those who live within city limits and those who live in the region surrounding Eureka.

Over the next many months Eureka Development will be sponsoring a variety of workshops, trainings, and seminars. They will be **community** based. All who live in the region are encouraged to be involved in them.
