

What's Developing

The top needs of the community were identified at the Community Action session on March 23. Now the Action Planning will begin for those three identified areas.

The first one to be addressed will be the one that received the most subcategories by those who offered ideas. It is entitled "Recruit". Individual items posted in the "Recruit" section included: Programs for training grants if students return home, More businesses, Support new school and hospital, Recruitment, Encourage young with opportunities, New building for business, and the very popular one: Kids, Kids, Kids.

If you would like to be a part of the process (your choice of attending only the upcoming planning meeting or continuing on as the plans are put into action) consider yourself invited to the session on Sunday, April 19 at 2:00 PM at the Information Center. And bring others along that have an interest in bettering the community.

Holly Hoffman began the facilitation process on March 23 and at that time committed to remaining with the Community Action program by continuing to facilitate the sessions. There will be Action Planning sessions for the other two areas ((Involvement and The Golden Rule) set up in the near future. Anyone interested can attend one, two, or all three and are encouraged to bring ideas.
