

What's Developing

Does your group or organization host an annual event? If so, would you like more people to attend?

The Eureka Community Development Company would be glad to help you let others know about your events. Tourism departments contact our office for information about the local events and they list them in their publications. The information they request is the name of the event, date and time, and a contact name and phone number for each event. They do not charge for these listings.

If you would like to have information about your annual event passed on to these tourism publications send it to ecdc@valleytel.net or drop it off at the Information Center.
