

What's Developing

It's fun to help businesses celebrate success. It's doubly fun when two of them do it on the same day.

The Eureka Top Hats (a group formed of Eureka Chamber and Eureka Development members) specialize in these types of celebrations. They draw attention to the business with a ceremony and put out publicity about the event. It's a way to let the community members know more about the services that are available to them locally.

On Saturday, September 12 at 2:00 PM a ribbon cutting will be held for Enhanced Martial Arts and PC Techno Guy. The businesses are located at 914 7th Street in a former church south of Highway 10 straight down from the business district.

Business owners, Shirlee Hall and Michael Mundt, will be on hand to answer questions on martial arts and computers. There will be martial arts demonstrations. Door prize drawings will be for coolers, shirts, hats, and free martial arts classes. Enhanced Martial Arts is offering a special right now: a free month of classes for those who sign up soon.

Everyone is invited to share in the celebration. Tour the facility and see all the changes that have been made. Take a good look at the weapons that are used in martial arts. Bring your computer questions along.

Help these businesses and their owners celebrate their first year in business in Eureka.
