

What's Developing

One way that the Eureka Community Development Company reaches out to the world is through their website at www.eurekasd.com. It is common for people planning to travel in the Eureka area or move to the area to find information on the website. Supplying them with current and correct information is very important.

Please take a moment to check information on the website and if changes need to be made call 605-284-2130 or email ecdc@valleytel.net with the correct information. Some areas that often need to be updated are business listings, organizational information, housing listings, phone numbers, website addresses, calendar listings, and event information.
