

What's Developing

The Eureka Community Development Company's annual meeting has been set for Tuesday, March 15 at the Wolff Den.

Because the organization is celebrating its 30th anniversary, the annual meeting will be a celebration of that milestone.

Keynote speaker for the evening will be Governor Dennis Daugaard. Other local, regional, and state people with an association with ECDC and economic development have been invited and some of them will speak briefly.

All who have a membership in ECDC are invited to a catered German meal at 6:00 PM. Anyone who is not a member can purchase a membership by contacting the ECDC office. That membership is a one-time fee and is a lifetime membership – it also entitles the member to attend the German meal free of charge and dine with the governor.

If you are in doubt as to whether you are a member, see the list elsewhere in this issue. Plus, all members will receive a written invitation. Memberships are for individual members, and husbands and wives must each have a membership. Memberships are not transferrable.

Thank you to all who have been a part of Eureka's economic and community development over the past 30 years. Please join together in the celebration on March 15.
