

What's Developing

It's thirty. THIRTY. The big Three-Oh.

That's how many years the Eureka Community Development Company has been in existence.

Economic development has been happening for much longer than that as an organization, but the nonprofit ECDC originated in 1986.

To celebrate that big milestone, we'll dig back through old record books and put some of each year's highlights here in the What's Developing column. We'll include projects in which ECDC was involved and key people involved in the organization over the years.

In day-to-day living it sometimes seems like things are pretty much always the same. Taking a few steps back and viewing a 30-year period of time, many changes will probably be very evident.

There will be a recurring theme of "Thirty" over the year in a variety of ways. So join in the fun with us. Reminisce. Remember. And if any of those happenings from the past 3 decades jog any memories for you...we'd love to hear your stories.
