

## What's Developing

Here at the Eureka Community Development Company office we often receive notifications of grants that are available. Some apply to projects in which we are involved and we can apply for them. But, many of them are for a wide variety of causes and some of you may be interested in applying for some of them, or at least seeing what is available.

We receive notifications of grants for education, medical, youth, parks & playgrounds, healthy living, community & school gardens, walking & biking, and a wide variety of other topics.

If you or your organization would like to receive these notifications just send your email address to [ecdc@valleytel.net](mailto:ecdc@valleytel.net) and they will be forwarded to you when they are received at the ECDC office.
