

What's Developing

Annual events are pretty common in Eureka. In fact, twenty forms were sent out to local organizations inviting them to list their events for 2018.

Glacial Lakes and Prairies Tourism Association serves the northeast quarter of South Dakota and uses these completed forms to help communities in their region by helping to promote their activities. The events are listed in their annual visitor guide, mentioned on their radio show in Watertown, and mentioned on their Facebook page. They also print entire posters on their Facebook page when any groups forward them.

If your organization has an annual event you would like to list and you did not receive a form, you can pick up additional forms at the Eureka Community Development Company office.

And, if you get the information to ECDC it will be placed on the ECDC website calendar and annual events listing.
