

What's Developing

Donations are still being accepted for the Copier Project. This is a service that provides free copies to all organizations in town. Parts are no longer available to repair the old machine. The machine is still working, but not well.

So far \$2,070 has been donated by local businesses and individuals. An additional \$1,812 is still needed. When the total is reached, the new machine will be ordered and installed, and any extra funds will be used to purchase paper and toner.

Checks can be mailed to ECDC, PO Box 134, Eureka, SD 57437.

Thank you to all who have given so generously to keep this service available.
