

What's Developing

The Eureka Community Development Company assembles 20 Welcome Bags at a time. These bags are then distributed to new people as they move to the community so they know which businesses are in town and the services that are offered.

The last of the Welcome Bags have been distributed and it is time to assemble the next ones. Any business that wants to add things to the bags is invited to do so.

Brochures, business cards, coupons, promotional gifts, and pens are some of the common items that businesses include. Please drop off items for 20 bags at the Eureka Information Center. They can be left on the table if no one is in the office.

The Boy Scouts under the direction of Trish Grajczyk will be assembling and distributing Welcome Bags as a community service project.
