

## What's Developing

If your club or organization ever has a poster for an event, email it to Eureka Community Development Company and we'll help you get the word out. Glacial Lakes & Prairies Tourism Assn. is based in the Terry Redlin Center in Watertown. They email posters to about 3,000 people, so we get the emailed poster to them and they add it to their e-mailing. There are other event calendars that are always looking for events to list across the state, so the information is also forwarded to them if it falls within their deadlines.

We are glad to help organizations publicize their events to a wide area to help draw people to the community who otherwise would not know about some of the great things happening in Eureka.
